SkinScription Peels

Designed to stimulate deep change, maximise results and reinvent skin.

Why Facial Peels?

Because people want fantastic looking skin!

Facial peels of all types are one of the fastest growing treatments in the cosmetic market. However, not all peels are equal...

Would you want to apply harsh, damaging chemicals to your skin, or would you choose to apply a soothing, warm, collagen stimulating active therapy to enhance, renew, replenish and reinvent your skin?

The Benefits of SkinScription Peels

- 1) Increase collagen and elastin production.
- 2) Increase in exfoliation.
- 3) Improvement of texture, tone and skin health.
- 4) Specific peels for specific skin conditions.

TRACEY BELL SkinScription

FACIAL PEELS

- Rejuvenation (all skin types)
- Purification (acne / oily)
- Age Management (all skin types)
- Moth Bean (anti-ageing)

Rejuvenation

A combination of alpha hydroxy acids derived from pineapple, orange, papaya and grapefruit.

Ideal for those who wish to refine, smooth and produce glowing skin.

Purification

An intense combination of salicylic and maleic acid targeted to skin conditions such as acne, enlarged pores, menopausal and hormonal skin.

Reduces inflammation, prevents breakouts. Exfoliates and smooths skin.

Age Management

A time rewinding peel therapy to enhance, renew, replenish and reinvent your skin.

These innovative, non-traumatic peels succeed by stimulating change in the skin through collagen production, exfoliation and cell renewal.

Moth Bean

A TCA peel blended with bean extract to achieve deep cellular anti-ageing exfoliation. This highly effective deep peel works to restore growth of healthy cells and remove layers of dead skin.

Great for sun damage, acne, scarring, lines and wrinkles.
